

COVID-19 (Coronavirus) Wellness Statement

The FFBC leadership wants each worshiper and church participant to stay alert and healthy as we face the challenge of COVID-19. The following notice has been made in consultation with health professionals who are FFBC members.

More statements may be issued in the near future as the CDC, Federal, State and Local government officials keep us posted. As we pray for our community, here are ways we will take care of each other as a congregation:

- 1.) If you are sick OR have symptoms which include fever, coughing, shortness of breath-
PLEASE STAY HOME!

Use caution if you have a current or ongoing health issue. If you feel you should stay out of a crowd, follow your instinct!

Please be sensitive to the needs of others. While you may not have symptoms of COVID-19 or any other virus, you could be a carrier!

- 2.) Frequently wash your hands with soap and water for 20 seconds!

Hand-sanitizing stations will be available at the main entries into the church building for Adults & Teens only! Too much hand-sanitizer may be harmful to children!

- 3.) Greeting Time and other communal traditions are suspended or limited during worship times.

Don't be offended if individuals, including staff members, keep their distance and simply wave hands at you rather than offer handshakes or hugs.

- 4.) As needs arise, FFBC leadership will attempt to issue timely information on cancellations or postponements of scheduled church events OR any other community or private events that may take place on the FFBC campus.
